## This Reveals Secret of Class 1 Beef

Here is Roy Jacobs, Cedarville College's farm manager, with some samples of the cafeteria's source of superior meat. Cattle feeding under Jacobs is done as correctly as mathematics is

handled, or physics laws explained, by the slide rule on the campus. Not only beef, but pork, vegetables and grain find their way from the 205-acre farm to the dining tables. And there are sur-

pluses to add to College coffers. Nothing is done haphazard on the College farm, and the institution profits from its rich acres materially as well as educationally. (Photo courtesy Dayton-Journal-Herald)

## College Men Learn by Doing on Farm

No fictional "Squeers" ever set his pupils to work more practically than Farm manager Roy Jacobs (right) is instructing Ross Hunt of Newcastle, Ind., and Raymond Glenn of Springfield, RFD., Cedarville College

students. The C. C. men are filling hog feeders. They, and many other students, work part time to cut their expenses, and meantime are learning some very helpful lessons. (Photo Courtesy of Dayton-Journal-Herald)

## Cedarville College's Farm Furnishes Supplies, as Well as Student Training

In Dickens' inimitable story of the teaching methods of the "Squeers," he tells how a boy was taught that a horse is a quadruped, and then was sent to curry the horse to make sure he knew more about a horse!

A lot of educational water has gone over the dam since that epoch, but Cedarville College hasn't found any better pedagogical idea, so that growing institution is using it with splendid results.

The College owns a farm. The farm has 205 acres and a practical farmer, Roy Jacobs, uses about 2,500 man hours of College boys' time in the fall, summer and spring seasons. Some of the boys are kept busy nearly all their spare time—and helpfully.

Much food for College Dining Rooms Raised

In addition to supplying students with opportunity for work, the farm also supplies all the meat needed at the college boarding club and a large part of the fresh vegetables used in summer and early fall. Great quantities of surplus meat and grain also are marketed.

The raising of livestock has proved most practical for the college farm as it permits a more

flexible work program for students than would be possible if grain were the major crop, Jacobs said.

The farm of 205 acres was purchased seven years ago for general farming that includes vegetables, grain, hogs and beef cattle. The land is under a five-year conservation plan under which higher production is assured.

Fruit Orchard Has Been Set on Farm

Vegetables are grown in one and three-fourths acres near the farm house where Jacobs live two miles northeast of Cedarville. A young fruit orchard has been started adjoining the ground where vegetables are grown.

The farm is divided into four fields of 40 acres each and four smaller fields ranging from five acres to 15 in size. A four-year rotation provides more grass for livestock by using hay and pasture fields two years in succession.

Pastures mixtures include Ladino clover, little red clover and a light stand of alfalfa. At present, 35 whiteface Hereford beef cattle (27 ready to market) and 180 feeder hogs nearing market weight range the pasture. There are also a farm team of horses and one cow on the land.

## FFA Chapters Are Winners at The County Fair

In the vo-ag judging contests in which representatives from the FFA chapters of four high schools participated, the chapters from this area were awarded many prizes.

Roger Johnson of the Bowersville chapter was first in heavy weight individual market pig, and first in heavy class market pen division.

The Bowersville chapter won first in shop display and also first in photography, the pictures showing activities of the school. Cedarville loomed large in the winnings. Dale Stover won first in the junior gilt class, Duroc Jersey, and second in both heavy weight individual market pig and second in heavy weight class market pen division.

Max Ritenour won first and second with junior Hampshire gilts and second on junior boar. Eugene Reese of Cedarville had the winning junior Hampshire boar. Albert Ison, Cedarville, had the champion pen of poultry, and best display of three vegetables.

## Local Woman Is Crochet Winner

Mrs. Elizabeth Farmer, Cedarville, R. 2, whose hand crocheted bedspread was chosen "best of the fair" among crocheted articles in the needlework department at the Greene county fair, was presented a gold loving cup and will be eligible to enter her prize-winning article in state fair and national competition of a nationwide crochet contest.

## Budgets Are Slow Coming to Auditor

The county auditor's office reported the estimated budgets of Greene county, two townships and four villages had not been filed as late as last week end. The deadline was passed a fortnight ago.

There are 35 taxing districts in the county, all of which have to file a budget with the auditor. Among these districts are the 12 townships, seven villages, 13 school districts and the cities of Xenia and Fairborn.

## UNDERGOES SURGERY

Elden Heinz underwent surgery in McClellan hospital, but has returned to his home at Paintersville.

## Mrs. Pickle Dies Thursday A. M.

Mrs. William Pickle, 75, died at the Greene county home Thursday morning at 4:15.

She is survived by her husband of Cedarville.

Funeral services will be held Saturday at 1 p. m. at the Nagley funeral home in Xenia with burial at Woodland cemetery.

## Nineteen Men Failed to Pass Examinations

Nineteen of the 28 Greene county youths who took pre-induction examinations a week or so ago were rejected, according to Mrs. Elizabeth Hurley, clerk of the county draft board. The call for examination, had been made to 59 men, but 11 of them requested examination elsewhere.

This leaves a pool of only nine men.

Ohio draft boards have been ordered to examine 5,000 more men to meet the September call for 2,850 recruits. The armed forces have increased their national draft quota from 20,000 to 50,000 men in September. Ohio To Furnish 2850

From the office of Col. Chester W. Goble in Columbus comes the information that the state is called upon to furnish 2850 men in October. This is in addition to 2850 for September.

Three directors of the Greene County Agricultural society, sponsor of the annual county fair, were re-elected to new three-year terms by patrons at last week's fair.

When ballots cast by purchasers of season tickets for the 1951 fair were tabulated Monday it was disclosed the three incumbents, R. K. Haines, Caesar Creek township; Weller K. Haines, Sugar Creek township and Harold M. Van Pelt, Spring Valley, had won over their opponents. James Ben Jacob Scott and Harvey Huff.

About 600 ballots were cast during the last three days of the fair but all purchasers of season tickets for next year did not take advantage of their voting privileges, it was disclosed.

Reorganization of the board will take place at its annual meeting next December. Present officers are Ralph K. Haines, president; J. Weir Cooper, Xenia, vice president; Mrs. J. Robert Bryson, Xenia, secretary, and Harold J. Fawcett, Xenia, treasurer. Other directors are Franklin Boots, New Jasper township; D. C. Harner, Bath township; Gerald Beck, Jefferson township; Ralph Townsend, Cedarville township; James H. Hawkins, Xenia township; Mrs. Leroy Jacobs, Miami township; Charles G. Leach, Silver Creek township; Earl L. Ritenour, Ross township; and Elmer M. Wolf, Beaver Creek township.

Simultaneous with presenting his resignation here, Dr. Savage also resigned as public health commissioner in Fayette county, a position he has held the last two and a half years along with his duties in Xenia and Greene county.

For three years prior to becoming county health commissioner early in 1937, Dr. Savage practiced general medicine in Osborn, now Fairborn. A native of McConnellsville, he was graduated from Ohio State university's college of medicine and took special training at the University of Michigan and Mt. Vernon Tuberculosis Sanitarium at Mt. Vernon.

He returned here Aug. 1 from Northwestern university, Evanston, Ill., where he was enrolled for two weeks for special training.

He had served as public health commissioner in Xenia since Jan. 1, 1939 when the city and county health units were merged under a plan which state and federal subsidies available. The merger was authorized by Xenia city commission through enactment of an ordinance late in 1938. At that time Dr. Savage had served as county health commissioner since

early in 1927 and his jurisdiction was extended to Xenia, serving both the city and county districts.

Dr. Savage is married and has a daughter, Caroline, at home, and a son, G. Howard Savage, Xenia, a member of the Dayton law firm of Pickrel, Schaeffer and Elbeling.

Dr. Savage's letter of resignation expressed his appreciation to all the officials, agencies, organizations and individuals who cooperated in making the health program in this community a success.

"The program could not have attained the proportions that it has without this cooperation," the retiring health commissioner wrote.

## Clifton Church To Celebrate Its Centennial

Saturday and Sunday, Aug. 12 and 13, the Clifton United Presbyterian church will celebrate the 100th anniversary of the organization.

An effort is being made to have all the living past pastors of the church present, and the invitation has gone out to all persons who have once belonged to the church but may now live at a distance.

Noon, Saturday, the celebration begins with a basket picnic dinner to which everybody is invited. At 2:30 that afternoon the history of the century the institution has existed will be recited, telegrams will be read as well as letters from many persons with Dr. R. H. French, presiding. There is to be a tea at the parsonage at 4 p. m.

The celebration continues all day Sunday, starting with the Sabbath school at 10 a. m., when Dr. Robert French, who was pastor of the church from 1931 to 1935, but who now lives in Butler, Pa., will teach the adult Bible class.

At the hour for worship, 11 a. m., Dr. Ross Hume of Camonsburg, Pa., will preach the sermon. He was pastor of the church from 1906 to 1910.

The concluding service will be at 8 p. m., Sunday, when E. O. Ralston, D. D., will preach. Dr. Ralston, now of Gary, Ind., was minister at the Clifton church during the period from 1935 to 1944. Another former pastor, Rev. J. G. C. Webster, will take part in services during the day.

There will be special music at all services.

Dr. John W. Bickett is the present pastor of the church and has taken an active part in preparing the program for the centennial celebration.

Dr. G. C. Stewart dies Tuesday in Michigan

A heart attack resulted in the death of Dr. George C. Stewart, 64, of Bay City, Mich., native of Cedarville, Tuesday morning in a Bay City hospital.

The son of Dr. J. O. and Emma Von Etton Stewart, he was born in Cedarville Sept. 9, 1885. He was graduated from Cedarville college and Starnling Medical college.

Dr. Stewart had practiced medicine in Bay City seven years, before this he was a physician in Hancock, Mich., for twenty years.

Surviving are his widow, Mrs. Gladys Stewart, and a brother, John, Walnut Hills, Cincinnati.

The body will arrive in Cedarville Friday morning and graveside services will be held in Massie's Creek cemetery Friday at 11 a. m. with Rev. R. A. Jamieson officiating.

Dr. G. E. Savage Resigns as Health Commissioner

Dr. Gordon E. Savage, Xenia, public health commissioner serving both Xenia and Greene county the last 1 1/2 years and county health commissioner for two years prior to that time, has resigned effective Aug. 31.

In presenting his resignation to Xenia City Manager G. D. Ackerman and also to the county board of health, Dr. Savage disclosed he had made no definite decisions as to his future plans. No reason was given by him for resigning.

Simultaneous with presenting his resignation here, Dr. Savage also resigned as public health commissioner in Fayette county, a position he has held the last two and a half years along with his duties in Xenia and Greene county.

For three years prior to becoming county health commissioner early in 1937, Dr. Savage practiced general medicine in Osborn, now Fairborn. ## Local People Not Delinquent

Significantly the listing of delinquent taxpayers includes not a single item on realty in local communities, with the exception of a total delinquency of about \$12 on two small tracts in Ross township.

Neither Jamestown, Cedarville, Bowersville, New Jasper nor any of the townships in which they are located had a delinquent publication.

However, under the personal and classified tax delinquent lists Jamestown had four listings for a total of \$2,463.70 due. Under the same listing Cedarville had three persons named for a total of \$74.87.

Delinquencies in Bath and Beaver Creek townships, and in Yellow Springs, and Xenia comprised the major portions of the lists.

## Happy Workers Win Prizes at County Fair

Cedarville 4-H girls took the lion's share of prizes for exhibits in their classes at the fair last week.

JoAnn Sheeley topped her competitors in honors. She won reserve champion for Dorset sheep; first prize for complete costume which will also be entered at the Ohio State fair; second prize in home-ec demonstration; reserve champion in conservation and received A rating in 10 projects.

Carolyn Wilson received a trophy for junior judging; Norma Jean Horney, a trophy for senior judging and champion on yeast bread; Fern Cook, champion on canning; Clara Sexton, first on home-ec demonstration which will also be shown at the state fair, and she also won champion on salad, sandwiches and drinks.

JoAnn Sheeley, Carolyn, Fern, Norma Jean and Clara are members of the Happy Workers 4-H club which received a 100 per cent completion rating.

Mrs. Albert Mott is the leader of the senior group and Mrs. George Sheeley leader of the junior group.

Members of the Nifty Cedar Gals receiving honors were Peggy Myers, champion on Cookies; Sue Stover, reserve champion on biscuits; Faye Huston, a place for champion home furnishing. Mrs. John Stover is leader of the Nifty Cedar Gals.

Community park literally bulged with people Monday night when the Cedarville Doubters trimmed the visiting South Charleston Wonders 14 to 6.

In the second tilt of the three-game series, the Wonders turned the trick, taking the Doubters to the tune of 22 to 12.

The playoff to determine the winners is set for Monday, Aug. 14, at 6:30 p. m., at South Charleston. Cedarville has two challenges, fans say: To take a big crowd to South Charleston as they brought here, and to duplicate the red-hot victory of the first game of the series.

The teams are made up of men over 35 years of age. The South Charleston aggregation is sponsored by the Boy Scouts and the Doubters have the charming ladies of the Legion Auxiliary as sponsors.

"Let's go, fans!" is the slogan echoing 'round town.

PMA Holds Meeting with Warehousemen

On July 25, 1950, a committee representing warehousemen in the state of Ohio met with the Ohio state PMA committee at the state office of the production and marketing administration, Columbus, Ohio. The following persons attended:

Hugh Brubaker, New Carlisle; Albert Dudgeon, Rockford; Myles W. Turner, Lancaster; H. P. Clouse, Milford Center; Ward Walton, Upper Sandusky; Richard G. Hanley, Ohio PMA Office; M. W. McConnell, Coshocton.

The committee was advised that in the next few days a warehousemen's handbook would be available for distribution to warehousemen in the state of Ohio, taking up the various phases of the uniform grain storage agreement.

### Editorial

#### A LIFE OF SERVICE

Our neighbor, Ross township's farmer-teacher, Loren Rogers, has retired from a job he has held so long that he has become synonymous with Ross township school. Very few teachers have such a career as his. It is impossible to measure the service such a life renders to a community, and to the world. As years go, Loren Rogers is not an old man, and nothing pleases his friends more than to know that he will continue to live in the community. We, his neighbors, share that pleasure.

#### OUR ROAD IS GOOD

While Federal highway is red-lined on the road maps through our town, State Route 72 belongs to us by a bit more of family kinship. The new wearing surface recently applied improves it greatly. The bums are better, the curves banked a bit more securely, and it is much safer with its nonskid top-coating than it was. No Ohio road goes through a better territory than our own 72.

#### TAXES VS. BONDS

There is a valid argument, and Senator Taft champions it, that paying cash for a war is much better than borrowing money to do it. That is, taxes are better than bonds. Don't shudder when you hear "more taxes." They are inescapable. Taxes of every description and on everything may appear, and soon. Korea sounds a long ways off, but that makes cost more. Wars have a habit of hanging on. It takes money—billions on billions—to carry on a war.

#### PERMANENT

Change is the rule of life. Hardly anything escapes it. Different things, different mechanisms, different practices—everything changes; that is, nearly everything. One thing that seems to remain, as Popeye the spinach-eating says "permanent," is the barker at the side-show and the concession. Old timers remember him of yore—his raucous voice, and his song-and-dance calls to the passing throngs. He was at our fair last week, reaping a harvest by his age-old methods. Change hasn't affected the barker.

#### GRASS LOOKS FINE

You've noticed, even town folk, how farmers are turning their attention to grass crops, with less grain culture? But the war may put the accent again on grain. We've wondered, lamented and even complained about the immense amount of grain stored, some of it here in Greene county. But, who knows, it may become as scarce as it has been plentiful within a year! But about grass—there's a field along SR-72 midway between Jamestown and Cedarville in which new grass is the best of the best. You've seen it? Do.

#### WEATHERMAN KIND

No agent of Greene county's 111th fair did it a better turn than the weatherman. No fair anywhere, any time, ever had a greater fair day than Thursday was. An afternoon like that in early August, on Thursday of a county fair, is a break everybody appreciates. You were there? You noticed everybody else was, too.

#### BROKEN HEARTS AGAIN

Day and night now mothers, sisters and sweethearts are seeing young men go away to war, and knowing by two recent experiences what happens, they have broken hearts. This writer recalls with an ache in his throat seeing hundreds of mothers clinging to many sons at railroad stations as good-byes, too often final ones, were said. To think that so soon it is all being done over again!

#### THE RED HUNT

An Ohio editor remarks that there are as many Reds in Ohio as the FBI says there are we'd better avoid establishing a parallel. Just when does a red herding change to a Red subversive? Wouldn't it be cheaper and better to chase the Reds out in the open now than when Uncle Joe thinks it's USA's turn? What's wrong with running down Reds, in the government or out?

#### ACHESON FROWNS

A headline says, "Acheson frowns on a loan to Spain." The senate proposed a loan of \$100,000,000. The frowns aren't as significant as the 1 in front of them. Time was when that much money would have bought Spain, dancing girls, medieval castles and everything. But dictators have a higher budget it seems.

## Six-Inch Sermon

REV. ROBERT H. HARPER

Extra, Interpreter of God's Word  
Lesson for August 13: Nehemiah 8: 1-4, 5-6, 8, 10, 18  
Memory Selection: Nehemiah 8: 10

EXTRA was the preserver of God's Word before he became its interpreter. He gathered the books of the Old Testament substantially as we have them today. But his greater work was interpretation. Reading in the Word to the people assembled in the space before the water gate in Jerusalem, he was assisted by trained helpers who explained what had been read to smaller numbers when, at intervals, the assembly divided into "discussion groups." These helpers should serve as models for preachers and teachers of the present. For they "read in the law of God distinctly; and they gave the sense, so that they understood the reading."

The great day brought a revival. The study of God's Word went on from day to day. The Feast of Tabernacles was revived, and on the eighth day there was "a solemn assembly, according unto the ordinance." It is evident that the lives of the people were powerfully affected for good.

A revival is needed in our country on a scale necessarily more vast than that led by Ezra. It must begin with the reading of God's Word, now more rich and full by the addition of the New Testament. It must have the presence of the Holy Spirit, and the preaching of new life through faith in Christ. Let each of us begin in his own place and in his own heart. May God give us the eagerness of Ezra's hearers and a new will to live by the truth of the great Book!

#### A SHE SITTER

A comely young lady is starting a flagpole marathon to establish a new record. She is high above a used-car lot in San Francisco. She is 25, and pretty, dispatches say. Her name is Norma Leech. She ought to stick it out, eh?

#### NOT CAMERA-IZED

Angus cattle can do everything perfectly, it seems, except get their picture in the paper. If it were as hard to find an Angus at milking time as it is to find its picture in the paper, supper would be over.

A beautiful Angus heifer, the Yellow Springs 4-H'er won the first prize with, is pictured but she could use some of the whitewash that's so plentiful down at Washington. "Year by year we see more black cattle in the fields and in show rings and wearing prize ribbons, but it's still hard to locate one in a newspaper picture. But Jerry Fulton's "Tiny" is a beauty, isn't she?

#### PROGRESS

People applauded the Hoover commission and its recommendations for reorganizing the executive branch of the government. But making it work is another thing. Already, though the people hardly realize it, more than a half dozen laws have been passed under the Hoover recommendations. It's a long way to go back to sanity and stability. But the grand old man, the elder statesman, has pointed the way.

## Dale Carnegie

Author of "HOW TO WIN FRIENDS and INFLUENCE PEOPLE"

**He Cured Progressive Alcoholism**  
GEORGE TEMMEN, JR., New York City, says that six months ago he had to make a choice between progressive alcoholism and a decent, respectable, secure and wholly desirable career as a salesman. For two years past he had been caught in a vicious circle where economic insecurity caused worry; escape from worry was sought in alcohol; and the use of alcohol interfered with his sales and aggravated the economic insecurity.

Well, that was indeed a vicious circle. But let's see whether George Temmen extricated himself.

He says he hasn't the slightest doubt that he was kept on the rolls of the company he was working for because of his family. But he couldn't expect them to bear with him any longer. So when he was told they didn't need his services for any further period, he wasn't surprised, though it did come as a shock. He knew that it would be difficult to find another job anywhere near as good, once a prospective employer learned why the company had let him out. He swallowed his pride and pleaded for a trial contract for another six months. Reluctantly the man before him granted him another chance, but for only six months.

Now it was up to him! He analyzed the causes behind increased drinking. He had never been a problem drinker in the more of each passing day. He decided to give it up for one day. When he took a drink the next day he felt guilty. Next, he decided to ask himself to have a drink and to tell himself "No thank you," as he put his mind definitely on something else. That made it a little easier, strange as it may seem.

He now found that it came a little easier each time to turn himself down. In a matter of three weeks, he didn't want a drink. But he adhered strictly to putting his mind on something else, every time he was in the presence of liquor, or even when he saw a liquor advertisement.

The day he told me his story, his six months' contract had just expired, and, hurray for George Temmen, he had just signed a 10-year contract as sales manager for his company.

## In Congress With a Buckeye

CLARENCE J. BROWN Writes

The house marched up the hill and down again for four long days last week in its endeavor to enact some sort of economic control bill. The administration-sponsored bill, while conferring upon the president greater powers and authorities to control credit, allocate materials, license business enterprises, seize property, make loans, and build and operate war plants, than were given President Roosevelt during World War II, contained no provisions to control prices or wages, or to ration scarce commodities. President Truman has insisted, he does not want or need wage and price controls, or rationing powers; but the country and the congress appear to think some such authority may be needed to prevent inflation. All of the various proposals to meet the situation considered last week were turned down. The house banking and currency committee will attempt to work out some amended bill for presentation to the house Wednesday or Thursday of this week.

A vote is scheduled in the house Thursday on the conference report on H. R. 6000—a bill to amend the social security act. The compromise bill practically doubles social security

## "I REMEMBER" BY THE OLDTIMERS

From H. E. Dutton of Chicago to Marion Leonard: "I remember when song writers were commissioned to write songs that carried an advertising plug, such as 'Un-

der the Anheuser-Busch' and 'In My Merry Oldsmobile.' Let's hear from some other old timers who remember similar songs of yesterday."

From E. E. Meridith of Fairmont, W. Va.: "I remember how our city went to town during the Spanish-American war with programs, sham battles and everybody singing. 'Just Break the News to Mother,' 'My Sweetheart Went Down With the Maine,' 'Just as the Sun Went Down.' No one, even then, knew the words to the national anthem but everyone could sing 'Hot Time in the Old Town Tonight,' including all verses and repeated choruses."

From "Dibble" of Chicago: "I remember when everybody was singing, 'Casey Jones,' 'Why Don't the Angels Play With Me?' 'The Bird in the Gilded Cage,' 'Down Went McGuffin to the Bottom of the Sea' and 'Ta-Ra-Ra-Boom-Deay.'"

(Readers who would like to list some of the old-time tunes still lingering in their memory may do so on a postal card addressed to the Old Timers' Column, Box 340, Frankfort, Ky.)

From Irene M. Davis of Winchester, Ind.: "You can tell a car-penter by his shavings."

## UNCLE JOE TO UNCLE SAM

benefits, increases the tax base on salaries to \$3500 per year, gradually increases social security taxes from the present 1 1/2 percent each on worker and employer to 3 1/4 percent, and brings 10 million additional workers, including self-employed under the social security system.

President Truman is requesting congress appropriate another 4 billion for military aid to foreign countries in addition to the \$125 billion appropriation voted a few short weeks ago. Another appropriation of 3 billion for foreign economic aid during the present fiscal year has also been voted.

The senate jumped into the center of a controversial issue last week by overwhelmingly voting a \$100 million loan to Spain, notwithstanding the opposition of Secretary of State Acheson. Fifteen years ago a bitter civil war was fought in Spain between so-called Communist and Fascist forces. Opposition to the loan is based on Spanish restriction of religious and civil liberties. Proponents point out how American loans were made Communist Russia, where no religious or civil liberty is permitted, and that Spain has a large army and would be the most easily defended area in Europe should war come with Russia.

The senate last week voted to cut all appropriations for federal civilian activities, other than those of the defense establishments, atomic energy commission and the FBI, by a straight 10 per cent. The house appropriations committee is reviewing all appropriations for civilian purposes, past and present, with the view of rescinding or reducing them. Such economies are badly needed, inasmuch as the president had requested more than \$27 billion for defense purposes during this fiscal year, and the estimated deficit for the year, despite the proposed tax increases, is about \$12 billion—with the probability that both defense costs and the deficit will rise.

The senate finance committee, now working over the house approved tax revision bill to put into effect the president's demand for tax increases, last week voted to levy new excise taxes of 10 per cent on television sets and home freezer units. With federal taxes jumping sharply this year, and higher taxes scheduled for next year, it may be of interest to know that in 1949 federal, state and local tax collections averaged \$359.00 for each American man, woman and child. Of this amount the federal government took 71 per cent, or \$253; state governments obtained \$56; and local governments \$50, for each person.

Many members of congress have been demanding the resignation of Secretary of State Acheson and Secretary of Defense Johnson. Last week Representative Percy Priest of Tennessee, Democrat whip of the house, made the same demand. The same day President Truman announced that as long as he was president both Acheson and Johnson would remain in his cabinet, and verbally chastised the Democratic house leader for his criticism of the two administration officials most responsible for our present troubles.

Two more accused traitors were arrested in New York by the FBI last week—Abraham Brothman and Miriam Moskowitz. Additional arrests are expected to come with growing rapidity as the nation tightens up on subversive and radical activities. Top G Man Edgar Hoover has called upon all Americans to be on guard against espionage and other subversive activities, and to report

any suspicious persons or actions to the nearest FBI office.

It was announced last week the 450 larger corporations of the nation had 43 percent higher profits, before taxes, in the second quarter of this year—from April 1 to June 30—than for the same period of 1949. Despite propaganda to the contrary, none of these corporation profits were made as a result of the Korean outbreak on June 25. However, with partial mobilization ordered and war activity greatly increased, congress will soon provide for renegotiation of defense contracts to permit recapture of exorbitant profits, and undoubtedly will also levy a new excess profits tax.

## WASHINGTON REPORT

THE FIGHT being made in the senate by Republican leaders against giving President Truman controls he asks in the 1950 defense act is just so much window dressing.

The fact is that within the next six weeks, the country will likely be on a full war-time economy basis and the controls now being asked and granted are just the beginning. The President will need and will get all the controls he seeks to mobilize the nation's economy as well as the manpower.

The flight of grocery and other prices due to heavy buying and hoarding of some commodities indicate the need of price controls which will come just as soon as the President deems it necessary to clamp down to avoid inflationary spirals. The chances are the strict controls will not be used until after election unless it is necessary for the national security.

Observers here declare that the Korean affair is the showdown with Russia. They believe that if Russia becomes convinced that this country and the other free nations will see the Korean war through to the end, regardless of cost or that we are ready to fight Russia herself, then Russia may call a halt short of a general war. Or Russia's aims may include incident after incident in the Korean manner which will keep the United States on a war basis for years, in the hopes that will weaken this country so that we will be a soft touch for the Russian Bear later on.

The job for the American people is to show Russia just how wrong she is and that's a job which takes unity and sacrifice and self-discipline.

The hope here in Washington is that the burial of "McCarthyism" in a blaze of partisan politics in acceptance of the Tydings committee report will end that sordid chapter in the history of the country. As has been pointed out numerous times, the whole basis of the charges made by Senator McCarthy of Wisconsin against the state depart-

Last week the atomic energy commission contracted with the Dupont company to build and operate a huge new plant for the development of the hydrogen bomb. Under this contract the Dupont company—one of the corporations often under attack from radical sources—will receive from the government the large fee of one dollar for its services on the H bomb project, which will cost many hundreds of millions of dollars.

One of the oldest methods of warfare, from neighborhood spats to international combat, is lies. We've got the world's champion in that field lined up against us.

ment was born in politics and in a partisan political speech. After five months of smearing of innocent persons during which time the Wisconsin solon has not proved a single charge, the subcommittee of the senate committee conducting the investigation returned a report asserting that Senator McCarthy had perpetrated a fraud and a hoax on the senate and the people of the country. The report was accepted on a strict party line vote. The thinking here is that the report may end the smear program and the senate may go about its business. However, if Senator McCarthy will not keep still, there are many here who believe an attempt will be made to impeach him.

A Congressional investigation of alleged scandals in the Veterans Administration may be the next probe undertaken by this probe-conscious congress. According to information the scandal broke in Tennessee with the suspension of 10 top officials in that state for alleged irregularities in connection with the school program for veterans.

In connection with the veterans program, the American Legion has announced that it will eliminate its lobbying activities with reference to pensions and bonus plans and for all other unnecessary expenditures with regard to veterans. The Legion will devote its full time to backing up the President and the government in its fight against Communists in Korea and elsewhere.

Senator Wherry of Nebraska, GOP floor leader in the senate, wants to be sure of the money appropriated for publicity in the Department of Agriculture is used to promote the Brannan plan. So he got through an amendment that the funds set up for the department's information service (\$1,255,000) may be used only to publicize programs that have been authorized by congress. Senator Russell of Georgia, in charge of the agricultural section of the big omnibus bill, said there was no evidence that the agricultural information fund had ever been abused, but he agreed to accept the amendment.

AN ORDINANCE FIXING RATES AND CHARGES FOR SANITARY SEWERAGE SYSTEM AND DISPOSAL PLANT SERVICE TO THE VILLAGE OF CEDARVILLE, OHIO. ITS INHABITANTS AND OTHER USERS.

WHEREAS, by virtue of Ordinance No. 259 passed by the Council of the Village of Cedarville, Ohio, on August 7, 1950, first mortgage sewerage system revenue bonds of said village in the

principal amount of \$50,000 were authorized to be issued under authority of Article XVII, Section 12 of the Ohio Constitution to pay the cost of constructing a sewerage system and sewage disposal plant for the village, to be constructed as follows: 1950, and to bear interest at the rate of three and one-fourth (3-1/4%) per cent per annum payable semi-annually, and maturity in annual installments during the years 1954 to 1958, inclusive, said bonds being payable solely from the revenues of the sewerage system and disposal plant after the payment of the necessary expenses of operating and maintaining said system; and

WHEREAS, for the purpose of protecting the purchasers of said bonds and in order to provide a market for said bonds it is necessary to establish certain rates and charges for sewer service to be rendered to said village and to its inhabitants and other users which will produce sufficient to pay said operating and maintenance expenses and the debt charges of said bonds which are fixed by said Ordinance No. 259.

NOW, THEREFORE, BE IT ORDAINED by the Council of the Village of Cedarville, Ohio, three-fourths of the members elected therein concurring:

SECTION 1. That beginning September 1, 1950, and thereafter, the following shall be levied and charged by the Village of Cedarville to use of its sanitary sewerage system and sewage disposal plant by the inhabitants and other users thereof:

Each house served by the system \$2.25 per month.

All vacant lots having sewerage service available \$1.00 per month.

SECTION 2. The following charges are minimum charges and maximum charges and the village reserves the right to increase the same at any time should the revenues of the system prove insufficient to pay the operating and maintenance expenses and the debt charges provided by said Ordinance No. 259.

SECTION 3. Should the bill for any property or use, shall thereon be suspended and shall only be resumed upon payment of an additional fee of \$2.00.

SECTION 4. The owner of private property which is served by said sewerage system by pipe connected with said system to convey sewerage away, shall, as well as the owner of the premises, be liable to the village for all service of said system rendered said premises.

SECTION 5. It is declared to be an emergency measure in that the health and safety of the inhabitants of the Village of Cedarville require the continuation without delay of the improvements to said system and it shall take effect immediately upon its passage and approval by the Mayor.

Passed this 7 day of August, 1950.

Arthur C. Galt, Mayor.

## Gas House Heating Applications and Approvals are STILL REQUIRED

On September 6, 1949, a Sixth Supplemental Emergency Order was issued by The Public Utilities Commission of Ohio under Docket No. 13,618, requiring that customers notify us of their intent to connect additional gas space heating equipment to our lines. The order, which is still in effect, provides that we be furnished the name and address where such equipment is to be installed and the hourly gas input of the equipment.

**FROM THE ORDER IS QUOTED:** "No natural gas company shall be required to supply gas for space heating equipment installed from and after the effective date of this order unless the consumer, present or prospective, or his agent, notifies the company of his intention to utilize such equipment and receives approval therefor. In the event that such company's facilities are inadequate to supply gas for such equipment the company shall advise the applicant, or applicant's agent, thereof, within fifteen (15) days of the date of such notification that approval for the use of gas is not granted. Thereupon the company as soon as feasible shall correct such inadequacy of facilities. Failure of the company to so advise the applicant, or the applicant's agent, within fifteen (15) days from the date of notification shall be considered as an approval of such application. In the event of the failure of any consumer to avail himself of the use of gas under said approval within six (6) months after date of said notification, such approval shall be null and void and a new application must be made by the consumer."

**Method of Making Application**

Applications for new or additional space heating with natural gas will be received in person, by telephone or by mail in all The Dayton Power and Light Company offices during regular office hours. Application for heating new homes must be made by the owner or builder.

**Written Authorization by The Dayton Power and Light Company is Required**

Applicants receiving authorizations for the use of gas for the operation of new or additional gas space heating equipment to be connected to The Dayton Power and Light Company, lines will be advised in writing within

15 days in accordance with provisions of the Commission's Order. Letter of authorization from the Company should be shown to heating contractor before installation is made. Authorizations are not transferable.

**Converting to Gas From Other Fuels**

Owners or occupants of existing homes and small commercial establishments now being heated with other fuels may make application for space heating with natural gas at any time. Upon receipt of approval by the Company, the customer may proceed with the installation of required heating equipment in compliance with local heating code.

**Natural Gas for Cooking, Water Heating, Etc., Not Affected**

There are no restrictions on the use of gas for cooking, water heating, and other common household uses. Appliances for these purposes do not add appreciably to the requirements for gas on peak days. Domestic gas consumers may purchase and install any gas fired household appliance including small gas radiant room heaters for auxiliary heating without Company approval.

Cooperation of our customers in filing applications is not only required, but it is vitally important that the Company determine the amount and location of additional space heating load to be

connected to its present distribution system in order to maintain adequate service to existing customers and to provide additional gas main capacity for new consumer requirements.
